Dear Aspiring Entrepreneur:

Did you know that more than one in every five self-made millionaires in America made their money in real estate?

Or that more than a trillion dollars in real estate is bought and sold in the United States each year?

But there's a problem. It's the old (but true) adage: "You've got to have money to make money."

And that's certainly the case in real estate investing.

business with over 100 employees in 11 offices nationwide.

Peter has been involved in real estate as an investor, contractor, developer, and lender for more than a decade. He has bought and sold more than 700 properties, and his construction company has handled more than a hundred projects. As a private lender, he managed a portfolio of more than \$5 million. He holds a degree in finance from Miami University.

**BEN HOWERTON**, who handles the Internet operations of The Real Estate Arena, is a long-time business owner and is the co-inventor of multiple patents and patents pending related to Internet technology. With a degree in aerospace engineering from Virginia Tech, Ben has 15 years experience in the technology consulting field, specializing in business-to-business and business-to-consumer portals.

Forget about all these “no money down” schemes you hear about on TV and online.

As you know if you own a home, it costs money to buy and sell real estate.

But as a Property Locator, you are able to nearly eliminate your own personal financial risk in this business by working directly with real estate investors. Read on to see how.

Not only do you not need your own money to be successful as a Property Locator, but we also show you exactly how everything works, and then actually start working with you as you begin to put deals together.

In this little-known real estate business opportunity, you can earn \$100,000 a year or more.

You'll be your own “boss.”

You can do it part time or full time – your choice.

You can even work from your home.

You can do it anywhere in the country ...for only those clients you like and with whom you want to work.

And, you can make a handsome six-figure income!

*Best of all, you can get started immediately.*

## The six-figure real estate career only a few insiders know about

One of the owners of Real Estate Arena, Peter Vekselman, started out as a Property Locator many years ago. That position not only helped him make millions in the industry; but was instrumental in his progression to becoming an extremely successful real estate investor.

His investment company has successfully completed hundreds of deals – buying and selling everything from land and single-family houses, to apartment buildings and commercial properties.

But he didn't go out and find all of those deals himself.

He couldn't be everywhere, looking at every property.

That's why, for over a decade, he relied on Property Locators to

A "Property Locator" is to real estate what a talent scout is to baseball.

Only instead of finding winning players for teams, you scout out winning real estate investments for investors.

The "deals" Property Locators brought, made literally millions of dollars for them.

That's why after over ten years of working with Property Locators we decided to create the first online training and support system for Property Locators.

We realized that people all over the country wanted to know how make money by working with real estate investors as a Property Locator.

It was for this reason, that The Real Estate Arena was formed. It was important to bring experts in that not only understood the real estate industry; but had knowledge about the internet and business development. So Pete Vekselman, and Ben Howerton formed The Real Estate Arena (see bios in the Upper Left hand side of this page).

We at The Real Estate Arena know first hand how rewarding – and lucrative - being a Property Locator is.

After all, we have trained more than 3,000 men and women in this little-known real estate opportunity.

Best of all, the demand for trained Property Locators today is booming ... and if you have the skills and training, you can write your own ticket. Now, you can get started as a Property Locator immediately.

A career as a professional Property Locator is the perfect "apprenticeship" to prepare you for investing in real estate of your own.

You get to work for clients who are among the most successful and savviest real estate investors operating today. You are not limited to working with only one investment company. At The Real Estate Arena, you'll learn how to connect with the right investors in your area.

As you work with them, you'll not only get paid handsomely ... you'll gain priceless experience and knowledge about how the smart money in real estate is made.

In the beginning you can expect to make anywhere from \$2,000 to \$25,000 per deal on the average.

You'll see first hand what properties they make money with ... which deals they reject ... how they structure deals to maximize their profits on every deal they take.

You'll learn how to discover "distressed" properties ... find motivated sellers ... identify under-valued properties ... negotiate the best deal ... and more.

Many of our students work as Property Locators for just a few years until they've watched and learned how to invest in real estate successfully – with minimum risk on every deal.

They then take some of the money they have earned scouting property deals for their clients, and buy a first property for themselves ... then another ... and another after that.

Keep this up, and within a few years, you could realistically own real estate worth a million dollars or more!

Plus, there's never been a better time to start as a Property Locator: with housing prices starting to fall in many areas, there are more bargains out there – and you'll have an easier time finding appealing deals for your real estate investor clients.

## Everything you need to succeed in real estate

In real estate investing, knowledge is power: the investor who knows the most about the property – and the market – gets the best deal.

As a Property Locator, you receive ongoing training and

is energy, enthusiasm, and an entrepreneurial spirit.

Your ambition, drive, and a willingness to work diligently on attaining a clear understanding of how fortunes are made in real estate investment ... and how to analyze a property so you can find the diamonds among the lumps of coal ... are also important ingredients in your business success.

When you enroll in our training program for Property Locators, here's what happens:

**\*\* FIRST**, you will begin Property Locator training.

Think of it as a "learner's permit" for future real estate millionaires.

You can start looking for properties right after your first lesson helps you master the basics of property locating.

Of course, you'll be pretty "green" at that point.

But from experience, I know that you can't learn how to make money in real estate by sitting in a seminar or listening to tapes.

The best way to learn is to jump in with both feet – to go out there and start doing it – and of course we'll be there to catch you if you fall.

**\*\* SECOND**, Here are some of the benefits of participating in The Real Estate Arena Property Locator Training Program.

Most of the Property Locators we train have jobs, families, and other commitments.

So we allow you to train at home ... at your own pace.

Your training includes your choice of twice weekly, live training in your Training Center online or over the telephone ... plus unlimited access to all course and reference material.

(But first, to get you started, you'll listen to audio seminars on the fundamentals of real estate property locating. These are prerecorded, and you will be sent instructions on how to access the audio as soon as you enroll.)

Too busy to listen to this week's training calls? You can dial in and listen to the current topics ... or any other past topic ... whenever is convenient for you.

Thank you for taking me by the hand and showing me the way **David Kim**

What a wealth of material, that we can go back and review - it is so refreshing to hear someone teach without trying to up sell me all the time.

**Wendy Smith**

Thank you and everyone at TREA for such a wonderful, educational, career-building website.

**Gary Fowler**

The Real Estate Arena is the best thing....I wish it had not taken me so long to join!

**Julius Wilkerson**

I am so grateful to be blessed to have become a member of the TREA community.

**Lynniece**

\*\* THIRD, once you begin working as a Property Locator, you'll have questions and need support. If you have questions or you're not sure what you should do next, we're here for you every step of the way.

\*\* FOURTH, we also teach you proven strategies for building your own local private network of real estate investors who are eagerly looking for their next investment property ... and are willing to pay you handsomely to find it for them.

\*\* FIFTH, You also get unlimited members-only access to all other portions of The Real Estate Arena Web site, packed with content and online tools to help you continually improve your real estate knowledge – and run your property location business more efficiently.

## **What If You Are A Real Estate Agent or Broker?**

The only other way I know of to make money in real estate - aside from buying and selling investment properties - is as a real estate broker or agent.

Unfortunately, the average real estate agent doesn't make a lot of money.

The U.S. Bureau of Labor Statistics reports that the median of

the annual earnings of all salaried real estate agents, including commission, was only \$27,640.

That's barely enough to make a living ... and hardly the fortune so many others in real estate enjoy.

There are two major benefits that real estate agents and brokers enjoy by working with The Real Estate Arena community.

1. Thousands of our Property Locators and Investors need your services. This will allow you to tremendously increase your clientele and in turn double or even triple your income.
2. By understanding real estate investing fundamentals and strategy, you'll be able to make more money for yourself whether you decide to invest personally or not.

Thus, it becomes very apparent that if you happen to be licensed, you can benefit tremendously from working with The Real Estate Arena community.
