An important message from one contractor to another about increasing your profits on every job…

…plus a FREE MINI MAGLITE® just for responding!

Dear Painter:

Maybe you can relate to this.

About 5 years ago, I got fed up with my employees. They were:

· Handing in illegible, hastily scribbled timecards that took my bookkeeper
  hours to decipher.
· Claiming extra overtime on jobs – time they had not always worked.
· Showing up late at jobsites.
· "Fudging" their hours – which inflated my payroll and ate away at my profits.

So I decided to do something about it – I invented:

The Jobclock: The Contractor's Timeclock...

...an automated, easy-to-use remote *time and attendance reporting system*
designed specifically for contractors.

When we started using The Jobclock System, our business saw an immediate
improvement. Why? Because it:

· Showed us exactly who was on time, who was late, and whether they really
  put in any overtime.
· Automatically created attendance reports for each employee, jobsite, and
  activity – eliminating hours of error-prone payroll calculations.
· Cut unauthorized overtime ... absenteeism ... no-shows ... and slacking
  virtually to zero.

The Jobclock System was so successful at helping us get time and attendance
reporting back under control, that my friends and colleagues in construction
asked, "Steve, can you make a Jobclock for me, too?"

Over the next six months, the requests for Jobclocks were so numerous, I
started a new company, Exaktime, to manufacture, service, and support The
Jobclock System.

That was four years ago. Today, more than 50,000 workers nationwide use The
Jobclock System to accurately record their time each day. Just listen to what
a few of our thousands of satisfied customers are saying...

> "The Jobclock saved us between $800 and $1,200 on our payroll the very
> first week. At the end of the first month, the savings were over
> $4,000!"
>   -- Ray & Gwen Harris - Three Star Construction

"The Jobclock System is just spectacular. I'll be getting more for my increased summer work!"
-- Glenn Hamanaka - Hamanaka Painting

"The Jobclock has made my life so much simpler and I'm not blowing smoke. It saves me between 25 and 30 hours each month processing payroll."
-- Gary Mimnaugh - GTM Construction

A FREE MINI MAGLITE® flashlight just for calling!

The best way to determine whether The Jobclock System can generate more profits in your business is to call Exaktime toll-free at **(888)788-8463** for a free consultation with one of our Time-and-Attendance Specialists.

Our team of specialists can answer any questions you might have about The Jobclock System - and how it can solve time and attendance problems in your business.

And, by asking you a few simple questions abut *your* unique situation - your jobsites, workers, and current timecard system - we can quickly customize a Jobclock System that can save your business time and money every day.

Why not call now? The conversation is free ... takes less than 2 minutes ... there's no obligation ... and you get a FREE GIFT - the complete MINI MAGLITE® with holster and batteries - just for calling, even if you don't buy The Jobclock System.

Use the Jobclock at your jobsite risk-FREE for 30 days!

I'm so convinced that The Jobclock System can help you gain control of employee attendance reporting, I'll send you The Jobclock System to use in your business risk-FREE for 30 days. Plus, if you act now, we'll include your first Jobclock (a $395 value) absolutely FREE!

If you are not 100% convinced that The Jobclock System is saving you time and money by eliminating handwritten timecards, just return it at my expense ... for a full and prompt refund of the entire purchase price. That way, trying my Jobclock costs you nothing!

To claim your FREE MINI MAGLITE® and to use my Jobclock System risk-FREE for 30 days, call toll-free **(888)788-8463** today. Or complete and mail the enclosed card.

Sincerely,
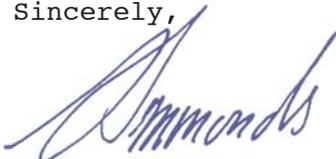

Steve Simmonds
Exaktime, Inc.

P.S. Order The Jobclock System on a risk-free, money-back trial basis within the next 11 days and get FREE shipping!
