Sales and service throughout the New Jersey/New York area

NOW IT'S EASY TO MAKE YOUR OFFICE LOOK

Modern Window Blinds add a touch of class and comfort—and it's as easy as picking up the telephone and calling Garden State Today!

5 Good Reasons why you should call Garden State for your new window blinds:

1. Convenience.

You're busy... and you don't have time to measure windows or go shopping for blinds.

So relax. And let Garden State do it *for* you. We'll come to your office, take measurements, help you select the right design for your windows, and tell you what the cost is. There is **NO CHARGE** for this free service—and no obligation.

2. Satisfaction Guaranteed.

Installing blinds can be a pain in the neck. But not with Garden State. We deliver the blinds to your premises and install them *for* you—quickly, expertly, and correctly. Garden State can customize blinds to fit windows of any shape and size. And best of all, we *guarantee* your satisfaction, because the job is not complete until you like what you see.

3. Cleaning and Repair Service.

To keep your blinds in tip-top condition, take advantage of our unique on-site blind cleaning service. We'll drive to your office, remove your blinds,

and take them to our nearby facility. There, we clean your blinds using the newest, most reliable pressure-cleaning equipment which removes build-up of dust, dirt, grease, even nicotine stains to dramatically improve appearance and extend the life of the blind. The blinds are quickly returned and rehung on your windows, fully restored to their original appearance. We also provide repair and maintenance service for your blinds, as needed.

OK GREAT!

4. The Widest Selection Available Today.

Just one phone call brings you the widest selection of blinds available in the New Jersey area today—all styles, sizes, materials, colors, and manufacturers (we offer Levolor, Bali and 12 other brands.) Whether it's venetian blinds, verticals, mini blinds, micro blinds, or pleated shades, we've got what you need. What's more, our expert "Light Control Consultants" help you choose the blinds that give you the right look at the right price.

5. We Respect Your Budget.

Although we sell only the highest quality products, prices vary widely with manufacturer, style, and material. So tell us your budget—and we'll design a solution that meets it. What's more, blinds can either be purchased or leased—whichever works best for you.

New Blinds: An investment to make your business future brighter!

Why it pays to invest in new blinds for your business:

- If you own or manage a commercial property, you know that the nicer the office looks, the easier it is to rent. New window blinds can make the space look far more desirable and help you fill the vacancy quicker.
- Building owners: You know that sprucing up your building can increase its value. New blinds can achieve a dramatic improvement in appearance and will generally increase the value of the property far in excess of their modest cost.
- Experience indicates that disease-causing germs can breed and thrive in the folds of drapes. Blinds are the most sanitary window covering available and contribute to a healthy workplace environment.
- Glare from improperly treated windows can be distracting. Garden State blinds control light more precisely, resulting in better working conditions and improved productivity.
- Most people hate working in a "goldfish-bowl" environment. Blinds provide your people with the privacy they desire.
- Worn shades and blinds make your office look cheap. Stylish new blinds can provide a much-needed "facelift" to impress customers and instill pride in your employees.
