

Breakthrough New Product

# The fountain of youth right here at the beach?

The secret to younger, more beautiful skin can be found serenely floating in the oceans off Australia's breathtaking shores. **OURS FOR THE TAKING!**

**Cosmeticians have recently discovered that the secret to more supple, smoother and youthful-looking skin is floating right in the oceans off Australia's shores.**

And now they've collected, processed and combined these marine ingredients in a unique formula. Called Immortal, this new skin cream is guaranteed to make your hands and face look at least 10 years younger or your money back.

### Reduces sun-induced DNA skin damage 84.3%

The harsh ultraviolet rays of the sun, pollution and ageing can all damage the DNA in your cells responsible for repairing skin and growing new skin cells. Result: wrinkles, age spots and red blotches that make you look old before your time.

**"Jellyfish have been shown to reduce 84.3% of the damage caused by faulty DNA"**

But there's a solution! Today's scientists have found an amazing phenomenon, certain species of jellyfish that are virtually immortal. Laboratory animals injected with these jelly fish cells have an increased lifespan by 20% to 100%.

In clinical tests, extracts from the immortal jellyfish have been shown to

reduce 84.3% of the damage caused by faulty DNA. And the extract can double or triple the rate at which DNA is repaired.

### A skin moisturizer from the sea

Women love our new skin cream, Immortal, which is formulated 100% from the natural ingredients harvested from Australia's oceans.

One reason is that we've added an extract from a microorganism, *Pseudoalteromonas*, that evolved to rejuvenate, enabling it to survive the harsh marine environments where it lives. We process it into a compound that doubles the production of collagen, a protein that helps make your skin smoother.

Another ingredient we added to Immortal is a marine polysaccharide that stimulates your skin's internal production of Hyaluronic Acid (HLA), a moisturizing compound with high water content, thus working as a wrinkle "filler." Results show wrinkle volume reduction of up to 93.5% in 28 days.

We also boosted the skin-beautifying power of Immortal with Hyadisine, an extract from

*"People always said I looked tired and over-worked. After trying many different products I had to agree with them. But then I tried the Immortal Jellyfish Cream and WOW! When I look in the mirror I feel like a different woman."* Linda NSW

a marine microorganism that complements HLA as an additional skin moisturizer. Rich in gluconic acid, Hyadisine also reduces the appearance of wrinkles.

### Try Immortal risk-free for 16 days

For a limited time only, we'll send you a 50mL trial jar of Immortal to use at home, risk-free for a full 16 days. Our reasoning is simple, the only way to discover the incredible anti-ageing effects of this skin

cream is to use it for a week or two and feel the difference for yourself.

Best of all, Immortal is backed by our 100% guarantee of satisfaction. If you don't agree that our Immortal cream makes your skin smoother and younger-looking and eliminates the appearance of wrinkles, just return the unused portion, or even the empty bottle, within 30 days for a full and prompt product refund. No questions asked!
