Takes 10 Years Off Your Face in Just **10 Minutes**

How a new revolutionary “molecular delivery technology” already used in life-saving medications can now give lift and volume to your face ... *while vanishing the appearance of lines, wrinkles, and age spots.*

Dear Reader

Since I entered the anti-aging practice over 20 years ago...

One of the **biggest lies** I've uncovered are the big, empty promises made by over-the-counter anti-aging products, and beauty creams.

In fact, so many of my patients have come to me with so-called miracle products they've found in Walgreens, on TV, and even in high-end shopping malls...

That I refuse to call it anything short of fraud...

Because instead of treating the fine lines, wrinkles and age spots they're intended for...

They *actually* sit on the surface of my patients' skin...

Like the pile of petroleum-based globs they are...

Neither giving the skin treatment nor letting it breathe...

Creating a sludge of grease on the face that not only smells bad but is unpleasant to look at.

That's why when my research team discovered the benefits of an innovative system called “molecular encapsulation”...

Heralded worldwide for its uncanny ability to bring vital medicines directly to the organs and tissues that need them...

We were particularly excited to adapt its technology to our skin treatment processes...

And share its ability to:

Moisturize the interior layers of your dermal cells, making skin firm and plump

Erase the appearance of fine lines and wrinkles

Fade redness and age spots.

In fact, we've named this new cellular anti-wrinkle treatment **Restore**...

And the women who've tried it are already raving about it....

"I love this product!" says Amy B. of Montville, NJ. "Within a few minutes of applying the cream, it visibly plumps out the under-eye area and my cheeks as well as those annoying lines that deepen as we age between the nose and lips."

She adds, "It also felt like it was tightening and smoothing my skin at the same time. I definitely feel I look younger whenever I use it. This is one product that appears to truly make a difference in helping me look younger. Please send another bottle right away!"

Restore will improve your skin at any age!

"Wow, this is a great product!" raves Cathy C. "The lines around my mouth and eyes are filled in and my

skin is tightened. I love having younger-looking skin, so I will continue using **Restore**."

"**Restore** goes to work right away and takes years off your face," Cathy continues. "Why go under the knife when there's **Restore**?"

"I got quick results and a smoother complexion," says Judy R., "and **Restore** is not sticky like some other products."

Takes 10 years off your face in just 10 minutes – as incredible as that sounds

With **Restore** we've solved the problem of the beautifying agents in your facial creams just sitting on the surface of the skin – and not penetrating into dermal layers -- by using "liposome technology."

This breakthrough delivery system encapsulates **Restore's** unique blend of botanicals, vitamins, and essential oils into a liposome shell – an organic container that carries the beautifying agents deep into the skin cells.

Restore's proprietary liposome shell is composed of *phosphatidylcholine (PC)*, a phospholipid. While cell membranes repel water, they *absorb* PC – because they are in fact made of it! As a result, **Restore** is delivered deep into the cell for maximum firming and volume.

The skin lifts and plumps, and in doing so, the deep wrinkles and lines on your face all but vanish. And this wrinkle-erasing is fast, taking place literally within minutes. You can take 10 years off your face in only 10 minutes!

But the incredible liposome technology is, after all, just the “delivery system.” It’s the formula that **Restore** brings to your dermal layer that rejuvenates your skin cells, literally in minutes, like nothing else you’ve ever seen before.

Some of the ingredients in **Restore** are found in other skin creams. Others are special and uncommon. But thanks to **Restore’s** liposome shell, ALL the beautifying agents in **Restore** are carried through the membrane and into the core of the skin cells where they can do the most good.

7 ways Restore helps build younger-looking, smoother skin while fading age spots and vanishing wrinkles

Correct your crows' feet with **Restore**!

The first skin-enhancing agent **Restore** brings to the interior of your skin cells thanks to its liposome delivery system is *Bright Madonna Lily Leaf* stem cell extract.

Also known as the white lily, this plant's stem cells remedy a particular problem of aging faces: dark circles under the eyes. The stem cells block the transfer of melatonin to decrease dark spots, producing more even skin tone and a brighter complexion.¹

luminance and tone around the eyes.²

In a clinical study reported in the *Journal of Cosmetic Dermatology*, participants treated with a serum of white lily extract for 28 days experienced a significant improvement in skin

The second skin-enhancing compound in **Restore** is *guarana seed extract*. Application of the seed extract to the face stimulates production of collagen – the main structural protein in the connective tissue that gives skin its strength.

In a study conducted in Hamburg, participants were treated with a face-care formulation containing guarana seed extract, creatine, and glycerol for 6 weeks. The researchers found that the formula stimulated collagen synthesis and also reduced sagging of the cheek in the jowl area.³

The third beautifying agent in **Restore**, *hyaluronic acid (HA)*, a large molecule that binds to water. HA is one of the most potent moisturizing compounds known to medical science.

In a study published in *Radiotherapy and Oncology*, a hyaluronic acid cream was applied to the skin of patients who had acute reactions after radiation therapy for 6 weeks. The HA greatly

reduced skin damage from the radiation treatments vs. a control group who did not get the HA cream application.⁴

Restore's fourth skin protector is good old *vitamin C* which, as you may know from reading my articles, is one of nature's most powerful antioxidants.

British researchers examined the skin of more than 4,000 American women between ages 40 and 74. The women who got more vitamin C showed fewer wrinkles and less dryness.⁵

In **Restore**, we use magnesium ascorbyl phosphate – a more stable form of vitamin C that doesn't break down in liquid as does ordinary C. That means the antioxidant molecules stay intact within your skin cells where they can prevent damage from dangerous free radicals.

Our fifth secret weapon behind **Restore's** incredible anti-aging effects for skin is *coenzyme Q10*.

Again, if you are one of my regular readers, you know I have long praised the virtues of taking CoQ10. I also pioneered the widespread use of ubiquinol, a form of the coenzyme that is 8 times more bioavailable to your body than the more conventional type, ubiquinone.

Japanese researchers found that taking CoQ10 promotes collagen production. They also discovered that CoQ10 acts as an antioxidant in the skin. Plus, CoQ10 supports production of the thin membrane that separates the layers of your skin.⁶

The sixth nutrient in **Restore's** anti-aging arsenal for skin is *white tea*. The white tea contains polyphenols whose antioxidant properties help protect your skin against damage.

In a study published in the *European Journal of Clinical Nutrition*, older women were given a supplement containing white tea extract twice daily for 6 months. The participants taking the white tea formula had improved condition, structure, and firmness of the skin compared with a control group not taking the white tea extract.⁷

The seventh skin-smoothing nutrient in **Restore's** liposome capsule is *avocado oil*, which reverses degenerative skin changes seen with aging by stimulating production of collagen and elastin fibers.

In a French study, a group of women between ages 50 and 69 participants were treated with a topical cream containing avocado extract and pentapeptides. The results showed improved skin cell metabolism and enhanced skin thickness.⁸

Lose your laugh lines with *Restore*

We stacked the deck to make your face look even younger, faster.

We've stacked the decks for beauty success in your favor by packing into **Restore's** liposome delivery system even more skin nutrients that can help add volume, moisturize, fade spots, and vanish the appearance of wrinkles.

The other beautifying agents in each dab (and a dab a day is all you need) of **Restore** include: shea butter... hydrolyzed collagen... caprylic triglycerides from palm and coconut oil... alpha lipoic acid... vitamin E, a potent antioxidant... avocado oil... organic extra virgin olive oil... citric acid... L-Carnosine... glycerin... green tea extract... and many others – a combination of skin nutrients unduplicated by any other anti-aging beauty cream available today.

Which do you want—an aging, wrinkled face or young-looking, smooth, beautiful skin?

Take a look at the women around you. You can see that for women, aging takes two different paths, at least as far as their looks are concerned.

Some look old, worn, and tired out, showing every bit of their years. Their skin is dry, sagging, spotted, and wrinkled.

Other women the same age walk past them smiling and confident. Their skin is smooth, unlined, vibrant, and glowing – much like it was in their 20s. They look younger, feel younger, and have more confidence and joy.

I know you, like thousands of my patients, want to choose the anti-aging path – to look and feel like you did 10, 20, or even 30 years ago.

Now, with **Restore** skin cream, you can have the smooth, unlined, unmarked face of a much younger you. And you can regain your youthful look right away.

So what are you waiting for? To order **Restore** anti-wrinkle cream on a no-risk, 90-day trial basis, simply call toll-free **888-795-4005** today. Or [click here now](#).
