OTT-LITE® Natural Daylight Lamps
for 1 Great Price*!

For virtually everyone, winter can be a very gloomy time of year. The shorter, frequently overcast days of winter can leave you feeling trapped inside your home – longing for the sun-filled days of summer. Apart from packing up the family and flying to someplace warm and sunny, here's the next best thing.

Bring The Power of Natural Daylight Indoors!

Bring the feeling of sunshine into your home all year long with genuine OTT-LITE® Natural Lighting products. You can transform any room into a bright, pleasant environment, bathed in natural light – a place where you and your family can feel happier and more energized during these dark winter months – ready and eager to tackle any activity, from reading and sewing, to working at your computer or doing homework. Plus, every OTT-LITE® tube is rated for up to 10,000 hours and will literally pay for itself in energy savings.**

The Best In Natural Light

All of our OTT-LITE® Natural Lighting products incorporate a patent-pending “rare earth” 5-phosphor formulation, available only in OTT-LITE VisionSaver Plus® lighting systems. Based on the work of visionary photobiologist and cinematographer, Dr. John Nash Ott, all OTT-LITE® lamps simulate the best in natural light, creating the optimum balance of contrast and brightness – perfect conditions for reading and close range viewing – with less heat than conventional desk lamps – and virtually zero glare.

- Specially formulated to simulate natural sunshine indoors
- Makes reading easier and more comfortable
- See text, images & colors with amazing clarity
- Reduces eyestrain caused by glare and distortion
- Saves money on electricity**

OTT-LITE
VISIONSAVER *plus*®

“Seeing is believing.

Before getting your eyes examined again, consider trying a new reading lamp from OTT-LITE Technology.”
