# Can The Worlds Smallest **JUMP STARTER** Charge All Of These?

PROVIDES INSTANT POWER TO JUMP-START AND RECHARGE CARS, MOTORCYCLES, BOATS, COOLERS, MOBILE PHONES, COMPUTERS, TABLETS, MP3 PLAYERS, GAMES AND VIRTUALLY ANYTHING ELSE THAT HAS A BATTERY IN IT

**T**here are few things more inconvenient and annoying than having a dead battery. Because it can result in:

- A car that won't start
- A boat that's dead in the water
- A laptop or tablet computer that won't turn on
- Being stranded without a working mobile phone
- iPad, iPod, gaming systems and other electronic devices that don't work
- Food that spoils in a warm cooler box

Now an ingenious Australian engineer has come up with a convenient, hand-held solution that can ensure power wherever you need it and put an end to dead batteries forever! Introducing the *Mini Jump Starter*.

### A jump-start you carry in your pocket

The Mini Jump Starter, a lightweight, easy-to-carry device that fits easily in your pocket, glove compartment or purse, gives you the peace of mind of never running out of electricity again.

Inside the Mini Jump Starter, a miniature nano-lithium polymer battery provides reliable power to jump-start or recharge vehicles and devices for more than 1,000 charging cycles.

The Mini Jump Starter includes Mini Jumper Cables, so you'll never be stranded by the side of the road with a car that won't start.

You can use your Mini Jump Starter

to instantly jump-start your vehicle without having to get a jump from another car or calling an expensive towing service that takes forever to get there.

And you'll never have to contend with a dead car in freezing weather, because The Mini Jump Starter works in temperatures as low as minus 20°C.

Ever have your boat lose power in the middle of the lake with no one around and no bars on your cell phone? Just attach the Mini Jumper Cables and your boat engine will roar to life in seconds, ensuring you won't be stranded.

### Recharges your portable devices on the spot

Measuring only 25cm by 18cm and weighing just 420 grams, The Mini Jump Starter has 3 power receptacles you can use to plug in and recharge almost any portable electronic device.

Laptop or tablet computer losing power during an important meeting or presentation? Connect to The Mini Jump Starter and run your computer off the high-capacity lithium battery inside.

Is your iPhone dead? Plug your phone into the Mini Jump Starter and you can instantly start talking again.

On a camping trip with no electrical outlet? The Mini Jump Starter can keep the beer and food inside your

**a/b.** Save money and jump start your car/motorbike without a break-down service. **c.** Safe at sea! This tiny jump starter can even jump start a boat or jetski! **d.** Back-up your laptop and work anywhere and everywhere! **e.** Charge any phone so you're never out of touch.

cooler box cold all day long.

Too dark at night to use the Mini Jump Starter? No worries! It has a built-in 3-function emergency flashlight with SOS signal.

**Use it FREE for a full month**

Don't you hate it when your vehicle or portable electronic devices fail because they've lost power?

Have the Mini Jump Starter with you at all times, it even has a convenient carrying case, and you'll never be out of power again.
