

**From:** Jason De Los Santos, *All-States Medical Supply*

**To:** Men with erectile dysfunction (ED) who want to enjoy great sex again

**Re: New ED technology gives over 90% of men firm erections again; may cost nothing**

If you suffer from erectile dysfunction (ED) — the inability to achieve and maintain an erection hard enough to satisfy your partner in bed — then I urge you to scan the enclosed free report immediately. There are 2 important reasons why you should do so.

First, as the report explains, ED is often a symptom of even more serious underlying health problems. So it's important to investigate further... and make sure your lack of an erection is not putting you at greater medical risk.

Second, the report details a proven and easy technology — the **Encore Deluxe Vacuum Therapy Device** — that can immediately restore your ability to maintain and sustain rock-hard erections. This proven technology uses a vacuum pump and a tube to gently stimulate blood flow into the penis, resulting in a quick and firm erection for over 9 out of 10 men who use the equipment — regardless of the root cause of their ED!

With your ability to have a stiff erection back, you and your partner will both enjoy the rich and active sex life you desire. Not only will your sexual drive and desires be fully satisfied. But the relationship between you two will blossom and deepen, thanks to the increased frequency and improved quality of the sex.

The Encore Deluxe is the finest vacuum pump ED device on the market today. And we can work with your doctor, Medicare, and private health insurance so that the Encore Deluxe system costs you little nothing. That's right — depending on your coverage, you may qualify to get the device absolutely FREE!

Best of all, when it comes to eliminating ED, results are guaranteed: If the **Encore Vacuum Therapy Device** does not consistently give you a hard, long-lasting erection whenever you use it, you may return the device to us within one year and we'll refund your money or your insurance in full. That way, you risk nothing.

The slim product brochure enclosed with the report gives you the details. To order your Encore Deluxe Vacuum Therapy Device today, complete the enclosed Order Form and return it in the postage-paid envelope provided. For faster service, call us toll-free now at **844-877-2273**.

Sincerely,

**Jason De Los Santos**
