

# This one little “trick” helps make European men the world’s *best* lovers!

Your flaccid penis is NOT YOUR FAULT. Now this one simple 100% natural secret can instantly give you rock-hard erections that make your partner moan – and even scream – as you deliver pleasure in bed beyond her wildest dreams.

## Discover a foolproof way to ensure great sex!

My reader, Susan from NYC shocked me. She revealed the one simple “trick” that not only reignited her sex life with her husband – but also made him a new man, with more stamina, greater vitality, and an insatiable sexual appetite. Now she can’t keep her hands off him!

### Susan writes:

Dear Karen,

I love my husband Richard. But we’re getting older, and I hate to see the way he’s slowly declining, both physically and mentally. It’s particularly sad and depressing for me – especially in the bedroom where, up until a few years ago, we could not keep our hands off each other. While I still crave intimacy, Richard seems to have lost all interest in sex.

Whenever I tried to initiate sex, even as far as climbing into bed buck naked, he says he’s too tired and just rolls over. On the rare occasions I cajole him into trying, his erection is so limp and soft, penetration is impossible. We tried everything: Testosterone pills. Creams. Lubes. Porn. Viagra. Penis rings and pumps. New positions. All to no avail. Until we finally discovered....

### The easy European “trick” for mind-blowing sex!

During a recent vacation to Italy, we met and became friendly with another couple, Monica and Edward. Although slightly older than us, they seemed so happy and in love – either holding hands, or with his arm wrapped around her, or walking arm in arm. Their affection was extremely obvious.

One day when the men went into a shop, she asked me, “Susan, is everything good with you and Richard?” Before I knew it, I was tearing up, and telling her our story.

After giving me a hug, she reached into her purse, took about a plastic bottle, and handed it to me. She smiled slyly and said: “Just have Richard take one of these tonight ... and call me in the morning. And don’t worry – it’s 100% natural – not a drug.”

Well, I convinced Richard to try it. And that night, my whole life changed in a way I could never have imagined. Richard initiated intimacy with me. When I wrapped my fingers around his member, it was long, thick, and as hard as a rock.

We ripped off our clothes and began making out like teenagers. My tongue explored his mouth, and his hands were all over me! I was wet and my vagina was pulsing.

When he entered me, I came almost immediately and had the most mind-

A secret almost any man can use and perform like a newlywed!

blowing orgasm ... and the greatest satisfaction making love I’d experienced in years! We lay contentedly in each other’s arms, and I felt warmer, happier, and sexier than I had in over a decade. My only worry as I drifted off was: *We have to have this stuff – how can we get more?*

### Revealed: Europe’s sizzling sex secret!

As we strolled with Monica and Edward the next morning, I quietly pulled her aside and asked what she had given me.

She told me that it was a best-selling 100% natural blend of botanicals that men all over Europe have been taking to turbocharge sexual desire and achieve harder, thicker, longer-lasting erections. And with their ramped up libido, arousal and erections are no longer a problem.

She told me it’s an extract of rare blossom seeds that grow only along the northern seas of Italy. Here, nutrient-rich soil and ideal weather combine to make a “super-potency plant” that can boost your libido ... bring you to full arousal quickly ... and improve your staying power.

Sincerely,  
Susan S., NYC

### But wait. There’s more.

Provarin not only shift’s sex drive and performance into overdrive. But it’s also a powerful anti-aging pill that gives you more energy and vitality. So you can enjoy your life to the fullest. And that includes sex, of course.

In addition to Italian blossom extract, Provarin also includes a special extract from a Korean berry. This bioactive compound improves blood flow for healthier circulation as well as making it easier to get a stiff, long-lasting boner.

One of the anti-aging ingredients in Provarin is a flower pollen extract. It contains a natural blend of amino and fatty acids, phytochemicals, proteins, and minerals. This pollen extract has been

shown to support optimal prostate health and urinary function.

Another of Provarin’s “anti-agers” is an amino acid that produces nitric oxide, enabling more blood to flow through the arteries so your penis becomes fully engorged when you are sexually aroused.

### Protects you from deadly “age accelerators”

Researchers warn that, as Americans in their 50s move toward retirement age, many are in worse overall health compared with what older Americans said about their own health at a similar age.

Stress, pollution, radiation, toxic chemicals, obesity, poor diet, lack of exercise, overexposure to the sun’s ultraviolet rays, and many other “age accelerators” can all help make you old before your time.

But now, Provarin – a 100% natural full-spectrum anti-aging formula – gives you everything you need to help you stay young in mind and body. Including:

- A vegetable seed oil that may help improve bladder control
- A root extract that can help control blood pressure
- A fruit seed extract that can reduce risk of heart attack
- And so much more...
