

Get Rid of Neuropathy Pain—for Good!

“Nerve Pain Breakthrough – 87.3% Success Rate! Clinical Experience and Research Concludes That This 5-Step Protocol Is Highly Effective At Wiping Out Neuropathy Symptoms”

- ✓ **Reduces or eliminates numbness and tingling in your hands, feet, and legs.**
- ✓ **Gets rid of pain and burning sensations.**
- ✓ **Supports and strengthens your nerves and nerve linings.**
- ✓ **Reduces stress and anxiety.**
- ✓ **Improves balance and coordination so you don't fall.**
- ✓ **Prevents amputation of digits and limbs.**

Dear Neuropathy Sufferer:

Are you sick and tired of living with neuropathy?

The nerve pain? The numbness? The burning? The tingling sensation?

If so, I have some good news for you.

It's a breakthrough treatment for neuropathy that can make your pain, numbness, burning, and tingling vanish like an ice cube on a hot summer sidewalk, and it's called the **“Neuropathy Freedom System™ (NFS)”**

Does the NFS work?

Our doctors and staff have treated thousands of neuropathy patients with the NFS. The procedure has a documented 87.3% clinical success rate, with 79% of neuropathy sufferers getting total relief and 8.3% reporting “some” relief.

This innovative system improves balance and sleep ... eliminates pain, burning, and tingling ... gets rid of those unpleasant sensations on the bottom of your feet ... and actually repairs damaged nerves!

All without taking mind-altering prescription medications that create confusion, loss of memory, fatigue, and weight gain.

Patient Al Capazze writes, “My legs and feet feel 95% better and I am able to stand and talk to people after I stop dancing. I have not been able to do this for a long, long time.”

“After 15 years of neuropathy numbness gradually spreading in both legs from my knees to my toes, I had tried everything known to man and was ready to give up,” says Dee Hirt. “I'm now at the end of my treatment with the NFS and have approximately 90% recovery.”

These are just a few of the **hundreds of testimonials** – available for inspection at our offices – from happy, satisfied patients who once were suffering from neuropathy and now are symptom-free.

But the real question is: Can NFS™ help you get rid of *your* neuropathy symptoms ... and relieve your pain, discomfort, and suffering?

You can find out by visiting our offices for a no-obligation NFS™ **Consultation** which, within minutes, can tell you whether you are a good candidate for the **Neuropathy Freedom System™** treatment protocol.

*Note: The cost of the initial exam and any diagnostic testing is covered by Medicare and most insurances. Schedule your NFS™ assessment, by calling **941-697-3001** today.*

The secret to the Neuropathy Freedom System's™ success...

What we've discovered over the years is that no one treatment works with every neuropathy patient, because the severity of the nerve damage and symptoms is so varied.

For that reason, we developed the **Neuropathy Freedom System™**, which gives nearly 9 out of 10 patients significant relief from pain, burning, tingling, and other neuropathy symptoms by combining the 5 most effective neuropathy treatments into a single integrated protocol.

The system uses these 5 advanced treatment modalities... we call them *Neuropathy Pain Relievers...* to produce results superior to those attained with any single method used alone. And the first of these is...

Neuropathy Pain Reliever #1: Fast-Acting Pain Relief Medications

To give you instant relief from neuropathy pain, our doctors administer one or a combination of several potent but perfectly safe FDA-approved pain relieving medications that have no side effects. In fact, thousands of doctors have now turned to these ultra-safe medications. That way, you don't have to suffer from neuropathy while you undergo our *painless nerve healing treatment* with the other 4 protocols used in the NFS™.

In a study published in the *Journal of Pain*, a 5% formulation of

medication administered to patients suffering from post-herpetic neuralgia (PHN), a pain syndrome of neuropathy. Participants getting the medication had significant pain reduction, with no side effects.

Neuropathy Pain Reliever #2: CBP

CBP is an advanced, gentle spine adjustment technique proven to produce results in more than **130 clinical trials** and research studies conducted over more than three decades.

Our chiropractic doctors position your spine and other body parts to provide dramatic relief of pain and other neuropathy symptoms. CBP achieves reduction in pain through optimal posture and spinal alignment.

A 77-year-old woman with severe neuropathic pain was treated with CPB and other chiropractic techniques. After 6 months, she was totally pain free!

While significant reduction in neuropathy symptoms can be achieved with CBP alone, the improvements are greater and **longer-lasting** when CPB is used in conjunction with the next 3 modalities of treatment below....

Neuropathy Pain Reliever #3: Light Emitting Diodes (LED's).

LEDs can be tuned to emit various wavelengths of light. Near infrared (IR) light passes through the skin unabsorbed, with no pain or burning sensation.

The IR light then strikes damaged subcutaneous tissue including muscle and bone. The IR light creates a cellular response which reduces pain and jump-starts the healing process.

Our LEDs are set to delivery IR light at a wavelength of 800 to 1,000 nanometers. It penetrates deeper than lasers without damage to the skin. The LED's specific frequencies provide relief for pain in bones, joints, and deep muscle tissues.

Neuropathy Pain Reliever #4: Good Vibrations.

The fourth treatment modality in the **Neuropathy Freedom System™** is WBV or whole body vibration therapy.

You stand on a plate that vibrates 25 to 50 times per second. The movement forces your body to respond, requiring

stabilization, coordination, strength, and endurance.

The results include:

- Better balance to prevent falls.
- Greater muscle tone and stability.
- Enhanced metabolic function.
- Elimination of neuropathy symptoms.

Neuropathy Pain Reliever #5: Micro Currents

We use a device to deliver advanced micro-current electrical therapy (MET) directly to the site of your neuropathy pain with an **exclusive, patented waveform**.

Right now, your neuropathy pain is transmitted to your feet through electrochemical signals generated by your damaged nerve cells. The device's unique waveform adjusts or modifies the signals within the cell to significantly reduce this pain.

In one study of patients with severe pain, 5 treatments with this device reduced pain by an average of 71%. And no, this is not what you find at your physical therapists office! We are the originators of the original **Neuropathy Freedom System™**. – unduplicated by any other medical practice.

5 Steps to Lasting Neuropathy Pain Relief

No single device, medication, or treatment modality alone can duplicate the results and performance of the 5-step **Neuropathy Freedom System™**.

For thousands of patients, many of whom had resigned themselves to endure neuropathy symptoms for life, the 5-step **Neuropathy Freedom System™** – medication, CBP, LED light therapy, WBV, and exclusive, patented electrical stimulation – has eliminated pain, tingling, and numbness with an astounding **87.3% success rate**. With no surgery. No painful procedures. And no discomfort of any kind.

The **Neuropathy Freedom System™** is so effective at getting rid of neuropathy pain and tingling, **people have come from all over the country to receive the treatment at our Pivotal Health Physical Medicine clinic. After all, we're the ones who invented the system – and have proven it on thousands of patients.**

"Please tell Catherine that my feet and back are good...haven't had any back pain at all! The pain in my feet is a lot less and the carpal tunnel in my wrist is completely GONE. All I can say is THANK YOU. Believe me, it's worth the visit!"

– Mary Lou Klopfer,
Upstate New York.

Can the Neuropathy Freedom System™ Make You Pain-Free?

The pain, the fatigue, the numbness and tingling... everything that has been brought on as a result of your living with **neuropathy ...** can be helped.

Can you rid yourself of neuropathy symptoms for good? You can find out by visiting our offices for a no-obligation **NFS™ Consultation and Analysis** which, within minutes, can tell you whether you are a good candidate and qualify for the **Neuropathy Freedom System™** treatment protocol.

The cost of this initial examination and testing is covered by Medicare and most insurances. To schedule your **free NFS™** consultation, call our offices at **941-697-3001** today.

There's no out-of-pocket cost to see if you are a **candidate** and **qualify** for the **NFS™**. No painful procedures. You have everything to gain. And all your neuropathy suffering to lose.

But I urge you to hurry. The demand for the **NFS™** has been overwhelming. We can do only **27 free consultations** within the next 14 days – and those appointments fill up fast. If you are not one of the first **27 registrants**, your name will be put on a **waiting list**.

If you are serious about finding a **long lasting solution** to your neuropathy, call **941-697-3001** today to reserve your **free consultation** and analysis. You no longer have to live with the debilitating effects of neuropathy. You'll be glad you called.
Sincerely,
The Doctors

P.S. We recently augmented the **NFS™** by adding a **sixth FDA approved space-aged** biologic therapeutic treatment...which stimulates healing of nerves damaged by neuropathy. Patients treated have now experienced significant relief of pain and tingling after just **two treatments!** Ask us how you can get safe, easy, painless relief of your neuropathy.
