Dear [NAME]:

Are the insurance companies pushing you around since your accident?

With our law firm on your side, we can help you push back.

Since 198X, Smith & Klein – a family owned law firm – has recovered tens of millions of dollars for clients involved in automobile accidents.

Did you know that accident victims who retain an attorney get paid on average 350% more money in settlement from the insurance companies than those who do not?

According to the Highway Patrol, your accident was not your fault – the person who hit you is to blame.

So you are the victim ... and as the victim, you may be entitled to compensation.

The insurance companies know this – and so they try to get you to settle quickly, for as little as possible, without talking to a lawyer.

Don't do that. Instead, talk to us first. We'll represent you and help you get paid more money for your case – for medical bills, lost wages, damage to your car, even pain and suffering.

Smith & Klein does more than get large settlements from the other driver's insurance company. Through our network, we help you get back on your feet during your recovery.

For instance, we can help you get a short-term loan from a financing company. We even have a roster of affordable doctors who will wait until your case is settled to get their fees paid.

Don't accept the paltry settlement offered by the insurance company. We can – and often do -- negotiate that dollar amount much higher. This can mean more cash in your pocket.[1]

Remember, you are already a victim. Don't let the insurance company make you a victim twice. [2]

The next step? I urge you to call me toll-free at 800-566-8550 to discuss the details of your case. The consultation is free. And there's no obligation.

Sincerely,
John Smith, Attorney at Law

P.S. Make sure you spend a few minutes reviewing our enclosed booklet, "How to Protect Yourself Financially After an Automobile Accident."
