World-Famous "spoonbender" and TV Celebrity, Uri Geller, has at last decided to share his amazing secrets which have showered him with success and fame. His program is easy to follow and he'll show you exactly how to "turn-on" your own mind-power "on demand" -- so you can be in total control of your own thoughts, feelings, and life.

Finally - after mystifying millions...

Uri Geller Reveals His Astonishing "Power Of Mind" Secrets For Multiplying Your Wealth, Health, And Success!

Yes! See exactly how to enjoy fast, material, and REAL everyday changes in your own life within 30 days (or less) -- FREE OF CHARGE.

Dear Friend:

When I mention Uri Geller to my family and friends, his name usually rings a bell.

How about you?

Maybe you even may remember seeing Uri Geller on TV -- bending spoons with his mind. Again... Again... and AGAIN!

Was that the real McCoy? Or just a trick?

Of course, most people were skeptical. To them, it was sleight of hand or some kooky TV camera angle that made the spoon "bend."

Even today, scientists still argue about whether or not Uri Geller has actually bent spoons with his mind.

But this ongoing controversy only serves to underscore something of tremendous importance to you: Uri's uncanny ability to help YOU profit enormously from your own unlimited mental powers.

Remember, Uri Geller has achieved amazing results - success, fame, happiness, confidence and friend to celebrities and the rich and powerful - using the fantastic power of his mind alone.

But the part of his mind that helped him attain those goals is not ESP ... paranormal ...

(Continued on page 2...)

telepathy ... psychic powers ... or anything else extraordinary.

It's this: The "power of mind" that made Uri Geller a household name is a basic mental capacity we all have ... one that can be developed quickly and easily through a simple program Uri has devised.

Yes, this "power of mind" is already within you. So, starting right now, you could:

** ATTAIN TRUE WEALTH IN YOUR LIFE ... achieve financial independence ... free yourself from money worries ... start a successful business ... climb to the top of the corporate ladder ... and become an even bigger success than you ever thought possible.

** ENJOY A LIFETIME OF GOOD HEALTH ... stay physically fit and free of illness ... lose weight and stay thin ... have more stamina, flexibility, and strength ... overcome addictions ... feel more alive and energetic than you have in years.

** REALLY BE MORE CONFIDENT ... let go of your fears ... feel empowered in your dealings with others ... become a better leader ... get what you want in any negotiation ... develop a more positive attitude ... and successfully accomplish whatever you put your mind to.

** HAVE MANY MORE FRIENDS ... influence people ... get others to like you and want to be with you ... improve your relationships ... have intensely erotic sex ... communicate more powerfully ... speak more confidently ... increase your sales ... and persuade others to see things your way.

Here's why you should listen to what Uri Geller has to say about attaining wealth and health...

Because his method is really incredible. And for no other reason.

Uri was born into poverty. He had no formal education beyond high school.

Look! But with the power of his mind alone, he went from having "nothing" to having it "all"...from not knowing where his next meal would come from -- to self-made and famous by age 30.

Uri's brain is no different than yours or mine: about 3 pounds of gray matter containing approximately 100 trillion neurons transmitting thoughts at frequencies up to 30 Hertz.

What's different is the way Uri uses his brain - something he has taught to others around the globe.

Uri has appeared on 60 Minutes with Mike Wallace, The View with Barbara Walters, The Tonight Show with Johnny Carson and Jay Leno, Larry King Live, and hundreds of other television and radio shows. Articles in countless newspapers and magazines - including Reader's Digest, Time, Newsweek, and Science Digest - have recounted Uri's incredible story.

He even participated in negotiations for the Nuclear Arms Reduction Treaty.

Over the past 30 years, large mining companies have employed Uri's unique abilities to find hidden gold and oil deposits.

Today, Uri travels the world telling packed rooms of Fortune 500 executives how to make their organizations -- and themselves -- more successful, more motivated, and more inspired.

Big corporations - including IBM, Hallmark, Novartis, and Sony - have paid Uri thousands of dollars to share his secrets of achieving unbelievable success - in business, career, relationships, and family - through the power of mind alone.

Those exact same secrets are in the new updated edition of Uri's internationally acclaimed program, Uri Geller's Wealth and Health Secrets - ready to be rushed promptly to you. Simply mail the enclosed Free Trial Order Form to receive it for a free 30-day no-risk inspection.

But please note: Uri Geller's Wealth and Health Secrets is not in your local bookstore or online. It is available only from this special direct-to-you offer ... and only for a limited time.

What is Uri's method for attaining wealth and health?

Every self-help guru and motivational speaker in the world - from Napoleon Hill and Earl Nightingale, to Anthony Robbins and Brian Tracy - essentially spouts the same piece of advice: "Have a positive mental attitude."

Easier said than done. But Uri Geller's Wealth and Health Secrets gives you exclusive, specific, practical techniques for making tangible, fast, material, and REAL changes in your life ... simply by altering, controlling, and focusing your thoughts in a more positive, productive way - Uri Geller style!

These time-tested ideas are not someone's hare-brained theory. Uri has used every principle in his program to help himself -- and others -- reach their goals through mastery of mind-over-body control.

Look at how just one of Uri's techniques helped one of the world's greatest concert pianists, Byron Janis. He was faced with having to end his performing career because of crippling arthritis in his hands.

Using the unusual "mind-over-body" technique Uri reveals on page 81, Janis harnessed his own will power to keep his arthritis under control - and even today, at 76 years old, he still continues to give standing room only Master Classes in piano.

Uri's exciting new program is packed with his AMAZING techniques for making your mind work wonders:

- How to change other people's behavior by merely looking into their eyes - with no hypnosis. See page 33.
• Absolutely sure-fire way to get the best treatment from your doctor - even if he's overly busy. (p. 94).

- Boss giving you a hard time at work? Turn him into your best buddy -- and staunchest ally. (p. 58).
• Uri Geller's 15 steps to gaining and sustaining optimal health. (p. 94).
• Beyond positive thinking: how to really tap into your "hidden mental powers." (p. 39).
• Why "thinking differently" can make you better in bed. (p. 50).
• No-brainer mind-control techniques to give you a good night's sleep. (p. 101).
• How "personality power" can help you get much better service in restaurants and stores. (p. 47).
• Escape your rut -- and change your life -- by changing your thought patterns. (p. 111).
• Can our thoughts affect the physical world around us? Scientists reveal surprising answer. (p. 21).
• How to tap into the hidden power of your mind to achieve any goal. (p. 119).
• Get the immediate attention and respect of everyone in the room whenever you talk. (p. 31).
• Rid yourself of depression and stress -- without even "thinking" about it. (p. 97).
• 30 quick and easy steps to develop a positive personality. (p. 119).
• Simple technique permits you to self-regulate frontal lobe activity - literally controlling your emotions. (p. 124).
• What the U.S. government knows that you don't about the power of your mind. (p. 112).
• Lose weight, stop smoking, and give up drinking even if you've tried and failed before. (p. 103).

And this is just a sample. But here's the big question:

Why does having a positive mental attitude work?

"How is it possible that through our minds alone - the thoughts we think - we can change our lives for the better?" I asked Uri during a recent phone call.

"I know something you don't," explained Uri, "What I know is that if you truly believe in something -- and positively channel that belief system into anything you want to happen -- then virtually any goal you or I can imagine -- is achievable through the power of self-belief."

"Now, I don't really know why that is. It could be a placebo effect, or true energy, or self-programming. All I know is that it has worked for me and many of the thousands of people I have helped."

"You see, we all have immense mind power. It's just that very few of us know how to use it."

In Uri Geller's Wealth and Health Secrets, Uri gives you that "know-how." You get the practical and effective techniques that can help you activate your own mind power "on demand" - so that all of your goals and desires are within easy reach.

Applause for Uri Geller.
