**AVIATION**  
**WEEK** & SPACE TECHNOLOGY  
PO BOX 125  
GALWAY, IRELAND

Dear Aviation Professional:

Imagine if you could get exclusive "inside information" on the aviation industry — in your country and worldwide — delivered to your desk once a week. Each week, you'd receive copies of business plans, financial reports, operational methods, and technology programs that would help you successfully manage your business...while keeping a watchful eye on your competition.

*The good news is: Now you can get this kind of intelligence for the next 4 weeks — absolutely FREE. But only if you act now.*

**Aviation Week & Space Technology...the aviation industry's inside source of "aviation intelligence"**

For more than 80 years, air transportation executives, managers, pilots, and engineers have relied on **Aviation Week & Space Technology** to help them manage their operations more efficiently...and run their businesses more profitably!

*Aviation Week & Space Technology is the only weekly international news magazine reporting on technology developments, business news, and operations strategies in all sectors of the industry — civil, military, and space. So it gives you the total picture...like no other resource can.*

With news bureaus and foreign correspondents all over the world, only **Aviation Week & Space Technology** covers civil aviation from a truly global perspective.

**Ranked #1 in the world**

In a recent survey, the firm of Erdos & Morgan asked top airline executives around the world, "What publication is your best authority on aerospace business, operations, and technology?" Their answer:

*Aviation Week & Space Technology was ranked #1...chosen as the top publication covering civil aviation...by a margin of better than 5:1 over its second-ranked competitor.*

Our readers say it...and the surveys prove it; **Aviation Week & Space Technology** is the #1 aviation publication in:

- **news coverage** — weekly publication enables us to give you twice as much news as most other aviation magazines...and more timely reporting, too!
- **information-gathering resources** — **Aviation Week** employs the largest staff of editors and aviation writers in the industry — to make sure you don't miss any important stories...no matter where in the world they take place.

- **subscriber satisfaction** — more than 100,000 of your colleagues in over 130 countries around the globe subscribe to and receive their own personal issue of **Aviation Week**, every week...our *average* subscriber has been reading **Aviation Week & Space Technology** for 12 years.

**A special FREE offer...if you act quickly.**

Should you be receiving your own personal copy of **Aviation Week** each week? To help you decide, we are making the following special offer to the air transportation trade ONLY:

**Simply complete and return the attached Free Issue Request Form. The instant we hear from you, we'll begin a complimentary one-month subscription to Aviation Week & Space Technology in your name.**

You'll receive a FREE issue of **Aviation Week** every week for a full month — for a total of four issues — at NO COST...and with no obligation to subscribe.

For nearly a century, **Aviation Week & Space Technology** has kept aviation executives and managers up-to-date on what their competitors, colleagues, customers, suppliers, vendors, and government agencies are doing. As one subscriber writes: "**Aviation Week** provides good information which is always technically precise, correct, and professionally done. *I prefer Aviation Week over all the other magazines I read.*" We think you will too.

Now you can benefit from this timely source of aviation intelligence for a full month...FREE! Complete and mail your Free Issue Request Form today. This special FREE "aviation intelligence" offer is for a limited time only. And once it expires, it may never be repeated.

Sincerely,

Kenneth Gazzola  
Executive V.P./Publisher

***P.S. This really is a FREE offer. The four issues are sent at no cost to you...and with absolutely no commitment or obligation of any kind. You can't lose!***
