

**You're invited to attend a FREE HAHT Software Audio/Web Seminar ...
"A New Prepackaged Solution for Web-Enabling
the SAP Sales & Distribution Module"**

Space on this Audio/Web Seminar is limited.
To register online, visit www.haht.com/SDseminar.
Or fax the enclosed Registration Form today.

Dear Mr. Hattler:

Your SAP™ R/3™ Sales & Distribution module already extends key inventory, order placement, and order status capabilities to key personnel in your organization.

Now, imagine the supply-chain enhancements you'd get by enabling these Sales & Distribution capabilities to select vendors, suppliers, customers, and other business partners over the Internet.

Your key business partners could:

- ✓ review the status of orders at any time of the day or night – without having to speak to a company rep.
- ✓ immediately check inventory to inquire about the availability of parts and products.
- ✓ place orders directly when it's convenient for them – 24 x 7
- ✓ get instant online pricing 24 hours a day, 365 days a year.

The fact is, you could be up and running with this powerful Web-enabled Sales & Distribution solution in just 30 days. Introducing ...

**The HAHT™ *e-Scenario*™ for Sales & Distribution –
New from SAP Strategic CSP Solution Partner HAHT Software®**

In a 1-hour Audio/Web Seminar to be held on Tuesday, February 23, 1999, we'll be sharing with SAP users worldwide a new SAP-centric e-business solution: the HAHT™ *e-Scenario*™ for Sales & Distribution.

Available from HAHT Software, the *SD e-Scenario* is a prepackaged application that can immediately extend the SAP SD module ... to vendors, suppliers, customers, and anyone else you choose ... over the Internet – reliably and securely.

That means everyone in your supply chain can share critical inventory, product, and order data. The results? Greater supply chain efficiency, lower transaction costs, less sales and distribution overhead, and faster delivery resulting in improved customer satisfaction.

(over, please...)

Register today ... participation is limited.

The HAHT Audio/Web Seminar is free, but participation is on a first-come, first-serve basis. To register online visit www.haht.com/SDseminar. Or fill in the enclosed form and fax it to 919-786-5250.

NOTE: If you are one of the first 100 attendees to register, you will receive a FREE White Paper called "Web-enabled ERP: Simplify and Distribute Complex Applications... In Internet Time." So don't delay. Reply today.

Sincerely,

A handwritten signature in black ink, appearing to read 'Alex Plavocos', written in a cursive style.

Alex Plavocos
Vice President
