to run on
Alpha Four
Version 6*

R&LPRO

A complete system for running your business on DOS and Alpha Four

✓ General Ledger ✓ Accounts Receivable ✓ Accounts Payable ✓ Inventory Control ✓ Payroll

General Ledger

- ▶ Lets you set up a customized chart of accounts quickly and easily
- ▶ Accepts information on all transactions with permanent audit trails
- ▶ Lets you open a new year, enter transactions, post and print financial reports... while the prior year remains open
- ▶ Powerful and flexible bank reconciliation
- ▶ No forcing of distribution balance — out-of-balance transactions will not post and be completed later
- ▶ Trial balance, balance sheet, income statements, and many other standard and customized reports
- ▶ Automatically creates offsets and multicurrency distributions
- ▶ Unlimited retention of history
- ▶ Tracks balances for up to 99 bank accounts

Accounts Receivable

- ▶ Customers can be set up with defaults for terms, sales tax, and sales rep commission splits
- ▶ Up to 99 ship-to addresses per customer
- ▶ Customers can be set up to receive either open item or balance forward statements
- ▶ Invoices can list items, quantities, ID numbers, products, services, and descriptions
- ▶ Inventory database automatically updated by each invoice
- ▶ Payments can be applied to individual invoices or balances due
- ▶ Automatic updating of general ledger

Accounts Payable

- ▶ Easy entry and updating of invoices, payments, and vendor balances
- ▶ No forcing of distribution balance — out-of-balance transactions will not post and be completed later
- ▶ Computerized checkwriting
- ▶ Batch selection of open invoices
- ▶ Calculates discounts and check amounts
- ▶ Accepts unapplied payments
- ▶ Retains history on invoices and payments

Inventory Control

- ▶ Includes purchase order entry, receiving, sales order entry, and shipping
- ▶ Gives you an up-to-the-minute picture of inventory by product, stock number, location, or any other criteria you choose
- ▶ Provides total control of inventory to prevent run-outs and facilitate just-in-time ordering
- ▶ Flexible reporting system generates an unlimited number of useful sales and inventory reports at the touch of a key
- ▶ A customizable solution to your company's most individualized business function — inventory management and control

The screenshots show the P&L-Pro software interface. On the left, there are two menu screens for 'GENL INFO SETUP MENU' with options like 'A * Screen Sample Data', 'B * Select Chart of Accounts', 'C * Modify Company Info', 'D * Set Up Bank Accounts', 'E * Payment Types', 'F * Vendors/Creditors/Pays', 'G * Record Your Data', and 'H * Go to P&L-Pro'. In the center, there's a 'HELP' screen with 'HELP INDEX MENU' and 'F1'. On the right, there's a 'Customer History' screen for 'ID: 0004', 'Name: Allied Hardware Supply', 'Address: 9424 Tower Road, City: Knoxville'. Below that is an 'Invoice' table with columns for Invoice #, Trade Date, Amount, P.O. #, P.O. Date, and Balance. The table shows several rows of invoice data. At the bottom, there's a 'Payments To Pay' screen for 'Global Communications' with a table showing 'To Pay', 'PctToTake', 'Inv #', 'Balance', 'Pay Date', 'Pct Date', 'Pct Avail', and 'Co'.

NEW! P&L-PRO Version 6.0

By taking advantage of the significant improvements made to Alpha Four, P&L-Pro is now faster, more robust, more versatile, easier to learn, and easier to use than ever. Improvements and enhancements include:

History Screens that show you everything you need to know about a vendor or customer on a single screen. This eliminates the time and effort of retrieving customer and vendor data from multiple screens located throughout P&L-Pro.

Optimized Performance to take advantage of the most exciting advantage of Alpha Four — **QUERY BY FORM**. All important screens have associated Query Screens and new menu bars to help you benefit from this time-saving analytical tool.

Accelerated GL posting

We've speeded up General Ledger posting so that it runs up to 50 times faster. If it currently takes your PC an hour and a half to do GL posting, P&L-Pro will take less than 5 minutes!

Easy Setup and Operation

saves you hours every time you computerize a new company. Answer three questions and you're done. This is the easiest and fastest set-up possible! Bank reconciliation, manual check entry, application of payments to invoices, and statement preparation have all been simplified and speeded up. Entering screens is significantly faster.

Enhanced User Interface We've redesigned screens and changed colors to make P&L-Pro even easier on the eyes and even easier to use.

Better Windows Performance Version 6 runs under both DOS and Windows '95. So both DOS and Windows users will find it easy to work with.

IRONCLAD MONEY-BACK GUARANTEE!

We're so convinced that P&L-Pro is a superior solution for businesses using Alpha Four that we offer it on a no-risk trial basis. *If you are not 100% satisfied, simply return it within 60 days for a prompt and total refund — no questions asked.*

To run P&L-Pro you need an IBM PC or compatible 386 or higher (486, 8 MB of RAM recommended), DOS 3.1 or higher.

Introducing

P&L PRO

Version 6...

Customizable, fully modifiable business and accounting software for Alpha Four users

Now there is a business productivity solution designed specifically for Alpha Four users:

P&L-Pro from Plato Software

P&L-Pro is the first... and only... complete business and accounting software package built on Alpha Four. Because P&L-Pro is built using Alpha Four, *you can change it...* quickly and easily... to handle your business the way YOU want it to!

A Unique Advantage:

The major advantage of P&L-Pro over other programs is that you can quickly and easily modify — and customize — P&L-Pro to meet your specific business computing requirements. On your own. Without depending on a computer guru for help.

This *fully modifiable* business and accounting software can be updated, enhanced, and modified ... at any time ... using Alpha Four ... to accommodate the requirements of growing, changing businesses like yours.

This prevents software obsolescence ... frees you from reliance on technical experts ... saves you an enormous amount of money on upgrades and programming fees ... and puts YOU in total control of your critical business systems.

No Other Software, At Any Price, Gives You This Flexibility!

See for yourself! Here's how P&L-Pro compares to "all-things-to-all-people" accounting programs off the software store shelf and super expensive \$20,000 custom programmed systems.

Feature	P&L-Pro	Off the Shelf	\$20,000 System
Global Updates to all Data	Yes	No	Maybe
Change ANY Field Rule Change ANY Program Rule	Yes	No	Maybe
Easily Add Fields to Any Screen or Database	Yes	No	Maybe
Create Your Own Related Data Files	Yes	No	Maybe
Unlimited Reporting, Modify or Create Reports You Need	Yes	Maybe	Maybe
Automate Procedures with Keystroke Recorder	Yes	No	Maybe
Add Choices to Menus	Yes	No	Maybe
Ability to Link Reports for Unattended Running	Yes	No	Maybe
Simple Enough to Install and Use Without Hiring an Expensive Consultant	Yes	Maybe	No
