FREE E-BOOK!

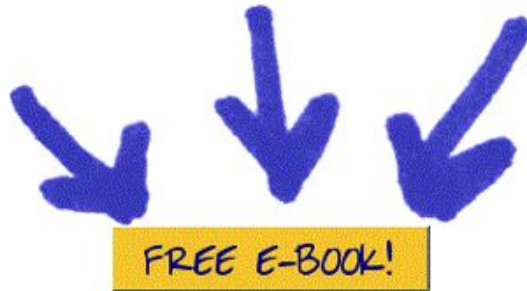

Dear Bob,

Hi, my name is Jason Friedman, and I'm a parent, NJ resident, expert driving instructor ... and if you're like me, *the thought of your kids getting behind the wheel and driving alone on the open road sends shivers down your spine – or at least keeps you up nights.*

FREE E-BOOK!

I believe we both want the same thing: to help our kids become better and safer drivers, to protect them from harm when they drive without us, and to sleep well at night knowing your teen can handle a car expertly and safely.

To that end, I have written a new e-book, *Everything a Parent of a New Teen Driver Needs to Know...*, packed with tips on how to keep your teen safe on the road. I urge you to download a free copy immediately -- just click here now:

In this informative, quick-reading book on safe driving for teens, you and your teen driver will discover:

- **The 2 most dangerous years on the road of a teen driver's life. Page 10.**
- How your parenting style affects your teen's safety on the road. Page 12.
- **9 driving habits your teen must master to be a safe driver. Page 17.**
- The awful truth about driver's education as it is taught in schools and privately today. Page 19.
- **The 5 biggest dangers your teen driver faces on the road today and how to avoid each. Page 25.**
- What NJ does to keep teen drivers safer than other states don't. Page 40.
- **The absolute worst time for a teen driver to be on the road. Page 41.**
- The ideal number of hours a teen driver should practice before driving on their own. The number may shock you. Page 49.
- **3 questions to ask your teen driver before giving him or her your car keys. Page 54.**
- Why the greatest danger to your teen's safety on the road may be his or her friend sitting in the passenger seat. Page 41
- **And more....**

Car crashes – not drugs or alcohol – are the number-one killer of teens in America today. Eleven teenage drivers are killed on the road in the U.S. every day of the year. To make your teen a safer and better driver, download my free e-book and also read my special note on the next web page you see after you request the free e-book.

FREE E-BOOK!

Sincerely,

Jason Friedman, CEO, Drive Safer

P.S. Our next Basic Car Control Clinic for teen drivers in your area starts soon and is filling up fast.

When your teen completes our Car Control Clinic, 3 immediate things will happen:

1—He or she will be a better, safer, more confident driver – so you will worry less whenever he or she pulls out of the driveway.

2—If your son or daughter has points on his or her license, the state of NJ will erase up to 2 of those points upon successful completion of our driver training.

3—When you show your child's Certificate of Completion for our Car Control Clinic to your insurance company, most will reduce the premium for his or her auto insurance by up to 5% for three consecutive years — saving you hundreds of dollars during the teen years.
